PROFESSIONAL PROFILE

Software Developer with **2+ years (26 months) of hands-on professional experience working remotely with Singapore-based technology companies**, contributing to desktop and web applications, digital workflow systems, and process automation. Experienced in C#, WPF, SQLite, Python, JavaScript, React.js, and Java, with practical exposure to UI/UX design, software testing, debugging, and version control. Familiar with AI-assisted development tools, including ChatGPT, OpenAI Codex integrated with Visual Studio Code, Google Gemini, and Claude, to support development workflows, troubleshooting, and code improvement. Currently pursuing a Bachelor's degree in Computing Studies at the University of Roehampton through Lithan Singapore and seeking opportunities as a Junior Software Engineer or Software Developer.

TECHNICAL SKILLS

Development: Python**,** C#, WPF, SQLite, Java, JavaScript, HTML, CSS, React.js, Spring Boot, Spring MVC

Design & prototyping: Figma, Draw.io, Axure; wireframing, UI/UX layouts

Tools & platforms: Visual Studio 2022, Visual Studio Code, GitHub, Supabase,

Web & operations: WordPress, Hostinger, website administration, workflow automation, technical support

AI Development Tools: ChatGPT, OpenAI Codex (VS Code Integration), Google Gemini, Claude — AI-assisted coding, code generation, debugging, code explanation, refactoring, and technical problem-solving.

Other: Software testing, debugging, documentation

PROFESSIONAL EXPERIENCE

Software Developer Intern • Thirteen Technologies, Singapore | 7th July 2025 – 8th October 2026

- Developed **Digital Workflow V1** using **C#, WPF and SQLite**, supporting report submission, viewing and editing workflows.
- Implementation of camera and equipment data modules, image handling and automated report-generation workflows.
- Contributed to **Digital Workflow V2**, focusing on modular architecture, scalable layouts and improved user experience.
- Created UI wireframes and prototypes using **Figma and Draw.io**, refining designs based on testing and team feedback.
- Worked across five software development projects including **Digital Workflow V2 Desktop, Digital Workflow V2 Website, Digital Workflow Unified, Digital Compliance and Digital Desk**.
- Performed Functional testing, debugging and iterative improvements in collaboration with the development team.

Software Intern / Operations Executive • Real Inbound Consulting, Singapore | May 20th 2024 – March 26th 2025

- Designed and implemented automation for recurring administrative processes and data-management tasks.
- Developed and maintained company and client **WordPress websites** and supported hosting administration using Hostinger.
- Provided technical support including troubleshooting, system setup and digital-tool integration.
- Supported business operations, event coordination and digital promotional activities

EDUCATION

BSc (Hons) Software Engineering (Top-Up) • Lithan Academy, Singapore

February 2024 – Expected December 2026

Higher National Diploma in Software Engineering • Lithan Academy, Singapore

December 2022 – January 2025
